PRODUCT DESCRIPTION

Herman Miller AO2, 5.5x7 cubicles with 54" high panels. The square foot per cubicle is very close to 6x6, send us your drawing for some free space planning to see how these will fit!

Each station has a 24x42 corner with (2) 24x42 return worksurfaces. (2) BF handing locking pedestals. The 42x53H panels down the spine are powered, the 42's and the 24x54 wing panels are non-powered. Finishes are tan.

This product can be EASILY reconfigured into 5.5x7 and 42" telemarketing stations.

Project pricing available. Product located in Ohio.

Panels may/will need light cleaning, keys for pedestals are extra. Stations sold in 8-packs like ice-cube trays with one base-in power feed. Power poles available. [Cubicles](#) set up in smaller "packs" or in "runs" will require more panels which may increase pricing.
